Monthly Report for January 1950

Ref: ORE Operating Procedure - Instructions No. 1

1. Attached are four copies of the Current Intelligence Production report for January 1950, and two copies of the ORE Status Report.

2. The following comments are offered as a preliminary statement on the integration of the former Staff Intelligence and Current Intelligence Groups:

(a) Detailed functional statements covering the new division of responsibilities are in preparation and have been discussed with a representative of Management who has been making a survey of the division. A simplified chart of the proposed organization of the Publications Division is attached.

(b) The initial emphasis in the reorganization has been upon integration of the clerical staff. (although this has been somewhat handicapped by the need for one additional typist.) Nevertheless, some progress is indicated.

(c) The merger has been a contributing factor in the reduction of overtime work. At present overtime is very seldom assigned.

(d) The availability of the ditto machine and operators has contributed to the speedier and more efficient reproduction of draft estimates and other papers formerly run off by the messengers on an irregular schedule.
